Sir:

**PETITION TO CORRECT PAYMENT OF MAINTENANCE FEE UNINTENTIONALLY
PAID AT SMALL ENTITY RATE**

The owner of the above-identified patent hereby petitions to correct payment of a maintenance fee unintentionally paid at the small entity rate. This Communication is being submitted within the six-month grace period set forth in 37 C.F.R. §1.362(e).

On March 25, 2010, a Communication withdrawing the assignee of record's previously submitted claim for small entity status was filed in the above-identified patent. A copy of the Communication is attached hereto as Exhibit A. All fees paid prior to the filing of the March 25, 2010 Communication were

Applicants : Martin Gleave et al.
U.S. Patent No.: 7,285,541

Maintenance Fee Unintentionally Paid at Small Entity Rate

properly paid while the assignee of record was entitled to small entity status. However, the Patent Office records for the subject patent were not updated following the filing of the March 25, 2010 Communication and continued to incorrectly identify the subject patent as being entitled to small entity status as recently as on April 15, 2011. Because the Patent Office records for the subject patent were not updated, on April 15, 2011 a computerized automated payment service incorrectly paid the 3.5 Year Maintenance Fee at the small entity rate.

To correct the deficiency a check in the amount of \$620.00 is enclosed, including \$490.00 for the fee deficiency in the 3.5 Year Maintenance Fee, and the \$130.00 surcharge for late payment of the 3.5 Year Maintenance Fee set forth in §1.20(h). An itemization of the deficiency in the fee paid follows:

Fee	Small Entity Amount Paid	Date Paid	Current Fee at Large Entity Rate	Amount of Fee Deficiency Owed
3.5 Year Maintenance Fee	\$490.00	April 15, 2011	\$980.00	\$490.00

Surcharge for late payment of 3.5 Year Maintenance Fee within 6 months: \$130.00

Total Amount Due: \$620.00

Finally, please update the U.S. Patent Office records for the subject patent to reflect that the assignee of record is no longer entitled to small entity status.

No fee, other than the enclosed \$620.00 fee (\$490.00 for deficiency payment and a \$130.00 Surcharge for late payment of the 3.5 Year Maintenance Fee), is deemed necessary in connection with the filing of this Petition. However, if any additional fee is required, authorization is hereby given to charge the amount of any such fee to Deposit Account No. 03-3125.

Respectfully submitted,

Gary J. Gershik

Information:					

This Acknowledgement Receipt evidences receipt on the noted date by the USPTO of the indicated documents, characterized by the applicant, and including page counts, where applicable. It serves as evidence of receipt similar to a Post Card, as described in MPEP 503.

New Applications Under 35 U.S.C. 111

If a new application is being filed and the application includes the necessary components for a filing date (see 37 CFR 1.53(b)-(d) and MPEP 506), a Filing Receipt (37 CFR 1.54) will be issued in due course and the date shown on this Acknowledgement Receipt will establish the filing date of the application.

National Stage of an International Application under 35 U.S.C. 371

If a timely submission to enter the national stage of an international application is compliant with the conditions of 35 U.S.C. 371 and other applicable requirements a Form PCT/DO/EO/903 indicating acceptance of the application as a national stage submission under 35 U.S.C. 371 will be issued in addition to the Filing Receipt, in due course.

New International Application Filed with the USPTO as a Receiving Office

If a new international application is being filed and the international application includes the necessary components for an international filing date (see PCT Article 11 and MPEP 1810), a Notification of the International Application Number and of the International Filing Date (Form PCT/RO/105) will be issued in due course, subject to prescriptions concerning national security, and the date shown on this Acknowledgement Receipt will establish the international filing date of the application.
